NOTABLE PRICE REDUCTIONS!

Bulbs for Fall Planting—1922

FOR 41 years Vaughan's Seed Stores at two of the greatest importing and distributing ports—Chicago and New York—has supplied the most critical Florists with Fall Forcing Bulbs.

Don't overlook possible tariff changes. We therefore invite you to place your orders with us now, and secure the following benefits as do all our regular customers.

No. 1. Long and satisfactory connections with the best foreign houses.

No. 2. Credit arrangements and closest buying at favorable exchange rates.

No. 3. First early shipments, followed by one or more later ones covering entire shipping season.

No. 4. Earliest deliveries of early forcing items which cannot rightly be delayed for main supply.

No. 5. Covering by us of all "Special Expenss" excess brokers' fees and port charges at New York, in which nearly every U. S. Florist grower has been persistently robbed for the past five years. We eliminate this.

No. 6. When you buy imported bulbs from us, you buy them by measure, in centimeters or inches and so accepted by us. This means much, as against those dealers who sell "firsts," "seconds" or "thirds" and give you no assurance as to actual measure of such bulbs.

If, as may be possible, you find any of our prices out of line ask us for the "reason why" and possible revision.

All prices quoted in this catalogue are subject to U. S. Tariff changes.

Dutch Miniature Hyacinths

(Also called Cynthellas. 13-14 ctms.)

Our **Dutch Miniatures** are picked bulbs of even size, and will all give large flowers. We make a specialty of these in named varieties, and our prices on same are low for the grade we furnish. Especially desirable for growing in pans for **Easter Sales**.

We ask that in ordering Paper Whites and Romans from this catalogue you give us the privilege of filling with the next lower grade if we cannot furnish the exact grade you order.

Your bulbs were the best we had this season.
E. B. MORGAN FLORAL CO., Inc.

Deeth, Nevada, March 12, 1921

Vaughan Seed Store, Chicago, Ill.
Gentlemen:—Your Hyacinths and Narcissus which I ordered last October and forced for winter blooming were wonderful. The Hyacinths produced three flower stalks each and the Narcissus from two to five perfect flowers. Wish to thank you for the promptness with which you sent these to me. I never have seen such large, plump, solid bulbs.
MRS. JAMES H. WILLIAMSON.

DOUBLE EARLY TULIP MURILLO

Early Double Tulips

Successful florists well know the value of these bulbs when forced for Winter Bloom. They "make up" splendidly when cut, rivaling the rose for color and shape and often attain the size of a good Peony. Grown in pots and pans they fetch big prices as decorative plants.

Our bulbs are selected by our best growers for our Florist trade and are sure to give satisfaction.

Explanatory: The number preceding the name of the variety denotes the height in inches, while the letters **a** and **b** indicate their earliness of bloom—the **a's** flower together and are the earliest; the **b's** flower together, but are somewhat late.

Darwin Tulips

The most profitable of all Tulips for Florists' use.

OF late years, growers are realizing that these are the biggest money-makers of the whole Tulip race.

The stately beauties are borne on stems often 3 feet high, the colors running from almost black to the loveliest pinks, crimsons, lilac, mauve, and many other light or pastel shades. Grown under glass, they force admirably with gentle heat, and seem to develop more delicate shades than out of doors. Those that force best are marked (f).

SINGLE TULIP

OF ALL OUR SINGLE EARLY TULIPS, those varieties suitable for forcing under glass, are **picked bulbs, strictly first size. The prices** for these selected bulbs cannot be compared with **ordinary** stocks of these kinds, suitable only for bedding outdoors.

EXPLANATORY: The number preceding the name of the variety denotes the height in inches, while the letters **a** and **b** indicate their earliness of bloom—the **a's** flower together and are the earliest; the **b's** flower together, but are somewhat late.

NARCISSUS VICTORIA

Paper White Grandiflora

THIS season we again have this stock on **first** French steamer into Port of **New York,** making earliest delivery of these most important forcing bulbs for the florist.

Our Bulbs are as usual, packed in **full sized** standard cases and are graded in France exactly as we sell them. It is well known that again this season as last, certain importers are bringing in **undergraded** bulbs in **short cases.** Even **11 centimeter** bulbs will be peddled.

This season's harvest is apparently the shortest ever known, a long-continued drought has, so French agricultural reports say, reduced the output to 30 per cent. of an average one. Naturally this has nearly doubled last year's prices; besides this, American importers have paid 10 per cent. more in May for French francs than present value. The question arises at once, what class of consumers can best afford these advance costs, who can make money on Paper Whites costing from 3¼ cents to 5¼ cents each?

We do not hesitate to say, that the grower who retails his own crops should take on 75 per cent. of his usual supply. All those who retail the bulbs for growing on in bowls should secure from 85 to 100 per cent. of a supply. The amateur window garden flower-lover will not refuse to buy even at 2 or 3 cents advance. There is an immense demand for these quick bloomers lasting till mid-February. Don't be without them. Avoid non-bloomers, 11-centimeter grade is unsafe.

We ask that in ordering this stock from this catalog, you give us the privilege of filling with the next lower size if we cannot furnish the exact size which you order on receipt of this book.

Am taking a little time to tell you that we are and have been cutting the best Gladiolus (from bulbs received from you last winter) that we have ever laid eyes on. The Mrs. Frank Pendleton all averaged 4-ft. stems and over, extra strong with seven individual flowers measuring five inches across and the most highly colored I've ever seen.

Pendleton are about over and America and Mrs. Francis King are in full now, with Schwaben coming in, every one standing up like cordwood.

You remember I wrote you upon receiving these bulbs that a lot of them were small. Well, they were, but they have certainly averaged better flowers than any we have ever had. BELL FLORAL CO.

Gladiolus—FOR WINTER FORCING

The varieties mentioned below are invaluable for greenhouse growing. Carnation temperature all the time. 60 degrees by day, 52 degrees at night is all right in **forcing Gladiolus.** Do not increase the temperature above 60 degrees if avoidable. Plant 5 by 7 inches or more apart.

We shall harvest and cure as early as possible with a view to care for orders that require December shipment.

LILIUM GIGANTEUM

Japanese Lily Bulbs

LILY BULBS delivered by us in the past season have (except as to one early lot possibly dug too early by Japanese growers—these we have replaced in part) proven satisfactory to our growers when forced. The grading has been equal to that of former years. Undersized Bulbs, crescent-shaped and mal-formed specimens are rejected. We are insisting that only fully ripened stock be sent us in future.

We are ready and anxious to submit samples of our stock for comparison with any bulbs imported into the United States.

LILIUM GIGANTEUM

Market conditions on these are not yet known as we print this. Write us if you are especially interested in Lilium Giganteum of best type. It is believed the harvest will be larger than in Fall, 1921, but not yet any over-production in Japan.

LILY OF THE VALLEY

In packing and grading the Lily of the Valley Pips for our trade, pips of one type and style of growth, raised on the same soil, will be branded separately, so that the customer receiving a certain number and brand from us, and forcing it to his satisfaction can depend on the same grade right along until sold out and will be advised by us when the grade is changed. This, we believe, will be much more satisfactory to the forcer than the former indiscriminate method of delivering all kinds and shapes of Valley under one brand, the planter never knowing what kind of a pip would open up in the next case received.

FORMOSUM

Growers must not force Formosum in great heat. A cool house, 60 to 65 degrees, with plenty of moisture is better, but they will certainly do best when grown in pots. The so-called Formosum seems to be a class rather than a single type, and starts into growth irregularly, so if in pots they can be shifted into sections representing varying heights thus giving the growing plants of different heights proper light and watering.

N. B.—Ten days in cold storage before planting is sure to benefit the crop.

Fischerii. Finest, largest, purest and most fragrant White Freesia yet introduced. Not being a single type, it comes into bloom more gradually than Purity, the crop lasting more than two weeks makes it very valuable to the florist. Per 100, **$6.00**; 1000, **$50.00.**

Colored Freesias

Progressive florists should not fail to plant some bulbs of this beautiful novelty. Their unique colorings and shadings and their delicate fragrance should find ready sales.

HYDRANGEAS FOR FORCING

Strong stock ready in November and December

Of all the plants for Easter and Spring flowering this one is probably the most popular and important. The following varieties have been selected, after careful consideration, as the most suitable for Florists' use. The imported pot-grown stock is superior. All have 3 to 4 flowering shoots.

Attraction. A very pretty pink, early and free.

Avalanche. A deservedly popular white variety.

Baby Bimbenet. Very dwarf, free and early. Large compact trusses of silvery-rose flowers.

Lilly Mouilliere. Bright carmine-rose, one of the best.

Otaksa. The old favorite pink which still holds its place as an Easter forcer.

Souv de Mme. Chantard. A dark pink, an early bloomer and a strong grower.

Trophee. The reddist red. A vigorous grower, free bloomer, of a deeper shade than Lilly Mouilliere. Has been accorded the most unreserved praise of any variety grown. A real red, an excellent actor.

Color of flower a deep rich yellow, softly spotted and blotched with bright red.

This remarkable "Gold Medal" Canna has been the sensation of the past eight years. It is a cross between the orchid-flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other, and the handsome broad, tropical foliage.

Ornamental and Flowering Shrubs

Our shrubs are Nursery-grown and are transplanted every two or three years. They are nice, shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first-class retail trade. They should not be compared to stock that is never moved from the cutting or seedling beds until sold.

Our Nursery is located at Western Springs, 15 miles west of Chicago, on the C. B. & Q. R. R., two blocks south of 47th Street, on the continuation of East Boulevard.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

Specimens. This term is applied to plants that are perfect in height and diameter as well as shape, and are recommended for immediate effect.

Shipping Directions. All stock is sold F. O. B., Western Springs. Packing charges to be added on all orders for shrubs, dormant roses, fruits, trees and vines, at cost. Always give full and explicit shipping directions, as our responsibility ends on delivery to the express or freight office in good condition. **All trees, shrubs and plants shipped subject to customer assuming risk regarding their own State Nursery Inspection Regulations. Certificate furnished with each shipment.**

VAUGHAN'S GIANT PANSIES

"INTERNATIONAL"

Vaughan's International Pansy Mixture was first offered by us in 1889. We import from all the best European sources. Each year has added to the quality of its flowers and variety of its colors. We buy every year, novelties of known merit and other special selections or named kinds. Each of our mixture contains over 50 per cent of named sorts. This is one of the **Specialties** that has established the reputation of Vaughan's Flower Seeds, and one which we maintain most carefully. Trade pkt., **50c**; ⅛ oz., **$1.25**; ½ oz., **$4.00**; oz., **$8.00**.

Giant Mixture

Embraces, besides all the separate shades and colors, five special strains not listed elsewhere, and which can only be had in this and our International Mixture. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau and the splendid, Cassier strain. Trade pkt., **50c**; ⅛ oz., **75c**; oz., **$5.00**; ¼ lb., **$18.00**.

NEW Early-Flowering Giant Pansies

The new strain produces its giant flowers about four weeks earlier than other known types. In March, when the old type pansies hardly show any buds the plants of the new strain bore from 3 to 5 of their giant flowers.

Early Flowering Giant (Hyemalis) Yellow, Dark Blue, Light Blue, Ice King, White with black eye, Jupiter, dark purple-violet, Mars, cornflower-blue, North Pole, pure white, Snow Storm, snow-white, dark seeded, Wodon, Black. Each of the above Early-Flowering, Trade Pkt., **25c**; ¼ oz., **50c**; oz., **$1.60**.

Mixed, Trade Pkt., **25c**; ¼ oz., **40c**; oz., **$1.50**.

Vaughan's Cut Flower Mixture

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixture for several seasons to some of our Chicago cut-flower growers, who have realized big returns from the sale of flowers. Pansies are as easily grown as violets, require less care and bring better results. Trade pkt., **25c**; ⅛ oz., **60c**; oz., **$4.00**.

Chicago Parks Bedding Mixture

This is a mixture made by ourselves from 20 different and distinct varieties of this type. While the flowers of this strain do not grow as large as those of the Giant Pansies, they excel them by a much greater number of flowers to a plant. Trade Pkt., **25c**; ¼ oz., **40c**; oz., **$1.40**; lb., **$20.00**.

Vaughan's P. P. (Popular Price) Mixture of Pansies

This mixture, like all "Vaughan" mixtures, is made up by ourselves from separate colors and strains of the Giant and Chicago Parks Bedding types and will furnish a large variety of colors with a good proportion of giant flowers. Trade pkt., **25c**; ⅛ oz., **50c**; oz., **$3.00**; lb., **$30.00**.
